Two side-by-side skyplots for station CARV. The left plot is for parameter M1C and the right plot is for parameter M5Q. Both plots show data from Data file CARV00ESP_R_2025215.xtr. The skyplots are circular with concentric circles representing magnitude (10 to 90) and radial lines representing azimuth (0° to 315°). The left plot (M1C) shows a dense distribution of points, particularly in the 0° to 45° range. The right plot (M5Q) shows a similar distribution but with fewer points overall.
